

## **NOTICE**

### **Environmental public information for Q1 2018 on the consequences of SC Rompetrol Well Services SA - Ploiesti headquarters, Clopotei street no. 2 bis**

Our company is a specialized company which mainly performs special operations on oil and gas wells, having the code CAEN 0910. At the headquarters in Ploiesti the company employs 98 employees.

Rompetrol Well Services SA is constantly preoccupied with improving its services to its clients: OMV-Petrom, Romgaz SA, Amromco Enery SRL, Driving Probe Craiova, Dafora Medias SA, Tacrom Drilling, complying with the legal requirements regarding environmental protection. The main activity of the company is carried out in the perimeter of the customers' wells, namely: cement works of columns , corkscrews and pressurized cements, fluid pumping in the wellbore, pressure samples.

Also at the company's headquarters there is the bulk cement storage activity for the wells and loading it in trucks.

Our activity does not involve substances or other products dangerous to the environment.

All staff employed were trained according to the contingency plans in case of accidental pollution. The plant is supplied with special absorbent materials to intervene immediately to remove leaks and debris in case of accidental pollution.

During the first quarter of 2018 there were no environmental events.

The company holds an Environmental Authorization no. PH-66 / 26.02.2014, issued by APM Prahova and no sanctions were applied following the controls carried out by the competent authorities.

According to the requirements of the Environmental Authorization no. PH-66 / 26.02.2014, annual monitoring of the industrial wastewater discharged into the canal of the municipality is carried out and noise measurements at the boundary of the site are carried out by an accredited laboratory.

Further information on environmental issues can be obtained from the QHSE Manager, Mr. Duca Razvan or Environmental Protection Officer, Oprea Adrian, at tel. 0244544321 or 0244402207.
